NJ Police Crash Report #2022009932

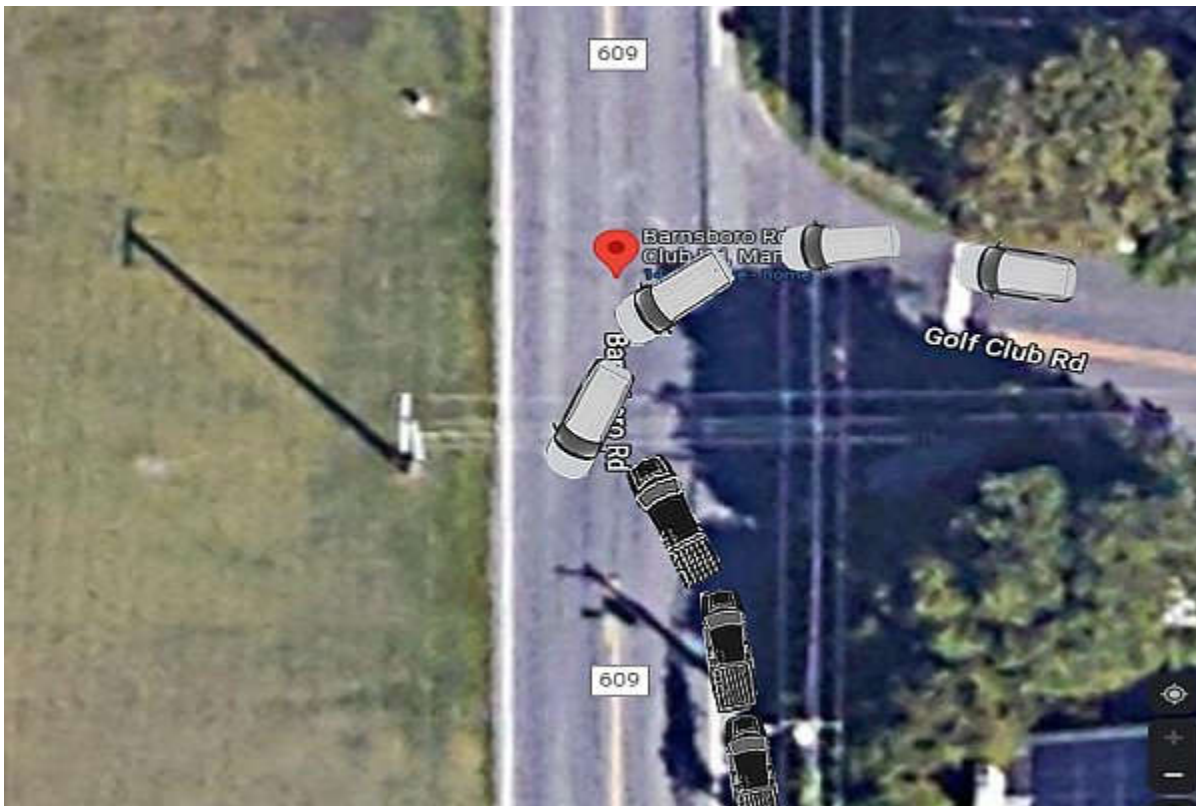

On 8/29/22 a crash report was written by an officer who arrived after the accident, and I was in a daze
Below are pictures of my vehicle and what happened

As seen above I was hit at the door on the driver's side

And driven into the telephone pole on my side of the road.
Had I not be driven into the pole, my suv would have flipped over down the embankment.

Before I turned onto Barnesboro rd. 3 autos passed (my right to left) on Barnesboro rd. I not only stopped at the stop sign, I was there for minutes.
Each time someone passed, I inched out on Golf Club Rd to see to my left.
I had to wait in case they turned onto Golf Club Rd.

As soon as I could think I 1. called my wife asked 2. asked to be checked out for internal injuries, (to no avail) 3. Tried to call for a tow truck, (also to no avail) the police had called for trucks. When my wife arrived, we went to urgent care where I saw a doctor got x-rays. Please excuse my tardiness, I am trying to get you all the info I can.

I have tried to get a hold of Jessica Brown, Adjustor 856-810-4731.
I called on Friday 9/30. When I got through, I was told I had the wrong Jessica Brown. I was transferred but, got a recording and left a message. I hope I will get a call Monday.

Benjamin Berscak, Medical Adjustor 856-703-2031.

I will try to get the police report fixed to represent accurately how the accident took place .
